Introduction

The 12.8V/25.6V lithium iron phosphate battery pack can provide power to various high-power appliances in the home at the same time by establishing a connection relationship with the inverter, photovoltaic pane, and power grid.it is especially suitable for families who have difficulty in using electricity at home and those who advocate energy conservation and environmental protection. it can effectively solve the problem of your family's electricity demand..

Feature

- ✓ >6000 times deep cycle charge and discharge
- ✓ BMS intelligent system, Multiple built-in protection
- ✓ High-performance LiFePO4 battery cell
- ✓ Long cycle life, safe, stable, lightweight, and easy to carry

Application

RV

Marine

Outdoor Activities

Solar

Power Backup
